1. Description

At the Battle of the Yanagi Nebula, the forces of the Gas Mining Guild managed to obliterate almost the entire Rheinland Navy in a surprise maneuver. The remnant of that great battle is a vast ?eld of Scrap Metal and radioactive cores that has rendered the area a major navigational hazard. Under an agreement brokered by Interspace Commerce (IC), ALG Waste Disposal has been allowed to build Helgoland Station and begin clean-up of the affected area, shipping Scrap Metal and other waste back to Rheinland for re-smelting.
