1. Description

The Arc is a source of knowledge and research. At least it was before the [Dom'Kavash](#) had to abandon this sector of the galaxy. Guarded by a defense grid this giant monument of power appears to be an unbreakable fortress. Its design raises the assumption that it is older than any other Kavash station we have discovered.

2. Stats

- No data available
- SYSTEM: [Banyisia](#)

3. Ships

- no ships available
