### 1. Description

Meitkin was hit by a giant asteroid about 2 million years ago. Most of the life on this planet was simply wiped out and even today only a few microbes can be found on its surface.

### 2. Stats

- DIAMETER: 8550.2 km
- MASS: 3.63 x10e24 kg
- TERRAIN: terrestrial
- TEMPERATURE: -65°C/47°C
- ESCAPE VELOCITY: 6.67 km/sec
- SYSTEM: [Banysia](#)

### 3. Picture
