1. Description:

The Outcast ship Lorenzo was making a [Cardamine](#) run from Cali to Mactan when it was caught by a military patrol in the [LD-14](#) Asteroid Field. It turned further into the heart of the field to escape its pursuers and stumbled into an old radioactive pocket. The crew is presumed dead, but the ship is probably still intact. No one has retrieved the cargo yet due to the high radiation danger in the area.
