1. Description:

The Shibuya Maru was making a [Cardamine](#) shipment across the southern end of the [Shikoku](#) system when it was intercepted by a Bounty Hunter named Jake Rush. He swears that he opened fire and badly wounded the ship. He searched the cloud for some time, but never found the Shibuya. The word around Deshima is that it never made it to the [Galileo](#) system. It's probably out there somewhere in the Keiun Cloud.
