

# Inklings

*"We're not like those worms! Granted, we're both without backbones, but unlike those '[Nomads](#)', we have individual consciousnesses. We can make choices, like you; and we're able to learn, like you. . ."* -Cdr. Sigma Skye

Inklings are the iconic characters of the Nintendo Wii U Game, Splatoon. How they managed to find their way into Sirius, is unknown, but it is possible a Hypergate was involved. One of the most significant of these [squid-kids](#), was [The Order](#)'s Inking representative, Cdr. Sigma Skye. He was the first dispel the rumor of Inklings and Octolings being an evolved strain of Nomad. Though all three races are invertebrates, Inklings and Octolings are able to make decisions on their own, Sigma confirmed that as he helped [The Order](#) in several Nomad raids, whether he is the only significant Inking in Sirius' history, remains to be seen.
