

# Planet Nosl

System: [Rhuntath](#)

DIAMETER: 6,472 km

MASS:  $3.19 \times 10^{24}$  kg

TERRAIN: Barren

TEMPERATURE: -51°C to -38°C

ESCAPE VELOCITY: 4.11 km/sec

A harsh, rocky moon of narrow peaks and deep valleys once formed in volcanic upheavals that have long since stilled and grown cold. Whatever atmosphere may have once been present has evaporated into space over the millennia.
