New special "maze system" added into last version of CF (2.0). It uses the same build like is in CF SP late mission where [Trent](#) enters [Dyson sphere](#) where is located [Nomad City](#) which have "maze" inside. In Multiplayer is this system used for special races (*event led by any member of the server staff*).

We do not have map for it 😊 ... (*hint: look for arrows on walls*)

Entry to this system is through jump-gate in [Arena](#) system (*it is also exit point of this "maze" system*).
