1. Description:

The remains of one of the [GMG](#) escorts of "Hosho Maru".

An exploratory [GMG](#) expedition consisting of the Hosho Maru and her two escorts was sent into [Omicron Beta](#). The last communication from the three ships was garbled, but it appears that instead of finding [H-Fuel](#), there were [Alien Organisms](#) for the taking. Soon after, a brief distress signal fragment suggests the convoy was being attacked by some unknown enemy. No further transmissions were received
