1. Description:

In 521, the supply ship Ft. Worth was approaching the Dallas Research Station from [Houston](#) when it was caught in the tremendous system-wide explosion that occurred during the failed Jump Gate experiment. The ship was far enough away from the initial blast that some people think it may still be floating out there in the Grande Negra Cloud. The Ft. Worth was carrying a full load of Jump Gate Parts.

2. Content:

20x Gate/Lane Parts
