Hamburg is the second most important System of the Rheinland House. Trading and contract signing are the most important core, local activities. Further is here a shipyard producing mostly trading ships, and on orbit of the [Planet Hannover](#) is a prison station. This all requires the establishment of a strong, local military presence, which is supported by the [Battleship Westfalen](#). Despite this, it is recommended to System visitors to be cautious, and stay in local Trade Lanes due to there still being regular attacks from [Unioners](#) and [Bundschuh](#) radicals who hate the current Rheinland government.
