Hudson was initially just an empty frontier System where only fast trade-lanes connecting Liberty and Rheinland were built. Liberty then started tests with terramorfing on planet [Atka](#), but terramorfing itself has never commenced. There was not any official reason given for this, however, unofficially it is said there were local security concerns due to the increasing presence of criminals. In present times, two criminal groups have their bases in local asteroid fields and are the de facto controlling power in the local area.
