This system connecting Liberty and Bretonia is controlled by a criminal group called the <u>Lane Hackers</u>. They strongly support smuggling operations in the local area and tightly cooperate with The <u>Independent Miners Guild</u> at the <u>Freeport 4</u> base. Using black market trades and hacking operations, they are able to access many secret technologies of the Houses and then use this knowledge in their asteroid-base hidden inside of the Barrier for production of their advanced fighters.

1. Bases
