Purian Lake

Table Of Contents

- System Info
- System Map

This big and environmentally rich System was under the control of the Nomads for millennia. Human settlers came here only in recent history; after they found and dominated the important X-3043 junction System. However, the local human community here gradually became independent of the four Houses (ie. Rheinland, Liberty, Bretonia and Kusari), but soon the criminal element seized the real power. In recent times this place also became the home for the pirate clan the Fallen.

1. Dockable Bases, Planets & Moons

- Classified *(Clan base, only MP, and intentionally not shown on the Map)*
- Planet Roma
    - Banona *(moon)*
