### 1. Description:

After the Nomad Wars, the Border World pirates began taking advantage of the weakened state of the House police and military forces. Already under constant bombardment from the [Blood Dragons](#) and [Golden Chrysanthemums](#), the Kusari Military drew upon the technology of some of their defeated invaders, and produced a new fighter to keep their economy and citizens safe. The Komodo [Dragon](#), just like its namesake, has a ferocious bite that will inflict certain death. Six forward-firing weapons and two 360 degree-firing turrets make sure of that. Powerful engines and good balancing keep the controls light, despite its bulk.
