1. DESCRIPTION

Universal Shipping is one of the "Big Three" Liberty companies and specializes in the shipping of high-risk, high-value cargo. Universal maintains only one base, in the [New York](#) system.

2. HISTORY

[Trenton Outpost](#) is home to Universal Shipping, one of the Big Three family of Liberty companies that also includes [Ageira Technologies](#) and [Deep Space Engineering](#). Universal Shipping made its fortune by gambling on shipping [silver](#) from [California](#) to [Colorado](#) for use in terraforming [Los Angeles](#), long before Jump Gates and Trade Lanes reduced the risk of transporting goods over such long distances. Universal then cemented its reputation as the premiere Liberty shipping company in 181 A.S. by signing a contract to handle all shipping between [Ageira Technologies](#) facilities and [Deep Space Engineering](#) construction sites.
