1. Description

The Battleship Mississippi, constructed in 745 A.S., is the oldest ship still serving in the [Liberty Navy](#). Affectionately referred to by more than one high-ranking officer as "Old Miss," the Mississippi is set to be decommissioned in 805 A.S. and turned into an orbiting military museum. Until that time, it is assigned to the [Texas](#) System where it provides additional security for the prison ships in orbit around [Planet Houston](#) and attempts to hold the [Texas](#) Line surrounding the F-Zone.
