1. Description

This group was originally comprised of heavy manufacturing and mining workers within [Colorado](#) and [Texas](#). Many of their ancestors also worked in the research station, which was a good employer for generations. But Liberty increasingly made money from its information technology licensing and Trade Lane associated monopolies rather than hard, manufactured goods. Over time most of the blue-ccl workers became unemployed and were pushed to the economic fringe of Liberty society. As the Liberty rich moved to [Colorado](#) to escape the paradise lost in [California](#), the [Xenos](#) were displaced to a small base in the mined out Silverton Asteroid Field. Once there the [Xenos](#) launched sporadic raids focused against foreign shippers. Whenever they were captured they were sent to [LPI Huntsville](#) prison in [Texas](#), where cross-fertilization with other inmates only helped to swell their ranks. [Xenos](#) also hate the foreigner [Outcasts](#) that feed the habits of Liberty's morally corrupt rich. For this reason, most of those declared NCR for drug crimes are placed aboard the [LPI Sugarland](#) to keep the two groups separate.

Because of the [Xenos](#) preference for other Houses' ships, [Universal Shipping](#) has actually benefited from the attacks and has lobbied the government to take it easy on them. It is rumored that some of their attacks on foreign shipping were not [Xenos](#), but actually mercenaries hired by Universal to harass the competition. There are two additional [Xenos](#) bases in the Independent Worlds systems of [Hudson](#) and [Kepler](#). Here the [Xenos](#) have been able to operate more freely, with only occasional [Liberty Navy](#) patrols and [Bounty Hunters](#) to secure the areas. They make hit-and-run attacks into Texas frequently, especially to attack the [Junkers](#) base at Beaumont and confront [Outcasts](#).

The [Xenos](#) are currently one of the poorest of all the criminal factions, so they have little resources to buy better ships and weapons. To gain a more stable income stream, they hope to evict the [Junkers](#) from [Texas](#), and ultimately [New York](#), and thus control a crucial market for [Cardamine](#). The [Xenos](#)' love of Side Arms has brought them into conflict with [Ageira](#), especial around its [Detroit Munitions](#) plant. They also regularly attack [Junkers](#) in the Jersey Debris Field of northern [New York](#).
