1. Description

The BPA Newgate is a deep-max penitentiary, specially built as a high-security prison for those inmates deemed too risky to house on inhabited planets -- usually serial felons, terrorists, and escape artists. Not only do several meters of armored plate stand between Her Majesty's guests and freedom, but a thousand miles of hard vacuum in every direction provide an effective deterrent to escape. The Newgate is also the headquarters for the [Bretonia Police Authority](#) in the system, and is usually host to more than a few [bounty hunters](#).
