The Jump Gate linking [Hokkaido](#) is part of a controversial construction project intended to open the recently discovered mineral riches of the [Chugoku](#) system to exploitation by Kusari business interests. However, because of the natural dangers of the [Hokkaido](#) system and significant levels of terrorist activity, [Interspace Commerce](#) (IC) refused to insure the venture until the Kusari government committed to station the [Battleship Matsumoto](#) in the system for protection. Despite the large military presence, however, the [Chugoku](#) Gate is still a favourite target of the [Blood Dragons](#).
