The Jump Gate linking Hokkaido is part of a controversial construction project intended to open the recently discovered mineral riches of the Chugoku system to exploitation by Kusari business interests. However, because of the natural dangers of the Hokkaido system and significant levels of terrorist activity, Interspace Commerce (IC) refused to insure the venture until the Kusari government committed to station the Battleship Matsumoto in the system for protection. Sapporo Station near the New Tokio Jumpgate acts as its base for supply. While the Matsumotos task is mainly fighting off the Blood Dragons, the Kusari State police forces of Sapporo purpose is keeping the GC at bay as well as finding their hideout.
