## 1. Description

Essen Station is the headquarters and primary manufacturing facility for [Kruger Minerals](#), a once proud company currently experiencing hard times. Wishing to exploit the vast gas resources of the Crow Nebula despite claims made to the territory by the [Gas Miners Guild \(GMG\)](#), [Kruger](#) was a primary supporter of the 80-Years War. After that conflict ended in disaster, [Kruger's](#) capital was exhausted and the company persecuted. Today [Kruger](#) is attempting to rebuild by allying itself with [ALG Waste Disposal](#).
