## 1. Description

Mostar is operated by the Bretonian Police Authority, who help to provide security to the entire system. It also serves as their center of recruitment, training and recreation in the otherwise very dangerous region of the Crossfire systems. Bowex uses the facilities here as a transport depot. While the ship dock is built from a Eden-class base section, the main population is housed in three Akebono-class sections to offer ample space for the afformentioned purposes.
