### 1. Description

Soon after settlement, Bretonia needed raw materials, and [Leeds](#) was quickly recognized as the most resource rich system under Bretonian control. Companies were formed and given [royal](#) charters -- near carte blanche -- to develop the system in any way they saw fit, while settlers were handed generous incentives to move to [Leeds](#) and serve as the workforce. Over the centuries, however, unchecked industrial progress has led to significant environmental pollution as exemplified by the omnipresent smog clouds. [Bretonia Mining and Manufacturing \(BMM\)](#) operates the bulk of the planetside mining smelting, and manufacturing facilities, while [Bowex](#) handles transportation of finished goods throughout Bretonia.
