1. Description

This is the less hidden but well protected base of the [Mollys](#). Lying in a field of out of mining charges selfmanufactured mines, it provides the [Mollys](#) with a rather safe place to live. Due to the - relatively - abundant availability of [gold](#) compared to other technical metals, even the faucets are made of it. Otherwise other resources including food are rare and have to be smuggled in in exchange for the precious metal.
