It was first a memorial to the lost heroes of the Nomadic Wars carved from one of the chunks of the dead planetary mass from [X-3043](#). The [Bundschuh](#) took it over and converted it into a fully functional shipyard. It was the last of five stations first built in Crossfire space. In an attempt to get a foothold in this transit system between Bretonia and the Crossfire region [Bowex](#) made an arrangement with the [Bundschuh](#), rendered more a political and more reliable organisation than as a true pirate group, to run the services of the station. Thereby opening a new field of weapon trade, offering - strangely - a wide range of [Corsairs](#) originated assets.
