1. Description

While <u>Tau-31</u> was considered unfeasible for development by <u>Bretonia Mining and Manufacturing</u> (<u>BMM</u>), the smaller <u>Independent Miners Guild</u> (<u>IMG</u>) -- eager to exploit areas in which <u>BMM</u> feared to tread -- was quick to establish Holman Outpost to mine the large quantities of pure <u>water</u> and <u>oxygen</u> ice in the system. <u>Water</u> and <u>Oxygen</u> are then shipped to <u>Planet Harris</u> in partnership with <u>Planetform</u> Inc. . The <u>IMG</u> and <u>Deep Space Engineering</u> also use the station to supply their respective operations in the recently opened <u>Tau-23</u> system.
