1. Description

A system as rich in resources as [Tau-23](#) was ripe for exploration, and once surveyed by Bretonian Mining and Manufacturing in 730 AS, the construction of a Jump Gate network linking the system with Bretonia became a high priority. While work on the [Tau-31](#) Jump Gate has proceeded apace, the project has recently come under intense attack by the criminal organisation known as the [Outcasts](#), though the reasons behind the hostilities remain unclear. [BMM](#) has been forced to hire extra security to protect the construction project and has even attempted to begin limited mining of the valuable [Beryllium](#) deposits in the system as a way to offset the skyrocketing costs.
